The Earl of Granville replied that lawful blockade must be maintained by sufficient force, but it was not absolutely necessary to render all ingress and egress impossible, but to render it difficult.

Lord Derby said there were two points or Lord Derby said there were two points on which it was desirable that the government should come to an understanding with the United States. They proclaim a blockade of the whole Southern coast, which they have not the force to maintain, although they could lawfully blockade certain ports. It was not desirable that they should proclaim a universal blockade, but only maintain a contribution. but only maintain a partial one. The Northern States also declare they should treat privateers as privates, but they could not do so by the law of nations, and it was desirable, notwithlaw of nations, and it was desirable, notwith-standing the proclamation, that it should be de-clared such penalty on British subjects would not be viewed with indifference by England. Lord Brougham said privateering, according
